Mission Statement:

Reach of modern technology and education to every corner of India with excellent quality and affordable cost.

Programme Levels & Implementation

Turnkey Implementation Model
Schools provide the lab space; Maiamma Foundation and DroneNova train graduates to implement the curriculum.

Rural Opportunity & Accessibility

High-tech training is available in remote/rural areas at significantly more affordable costs than in metro cities.

Programme Level Pricing & Intake

Programme Level	Cost per Head (Indian Rs)	Minimum Students
Level 1	1500 Rs	1500 students
Level 2	3500 Rs	500 students
Level 3	7000 Rs	250 students
Level 4	25000 Rs	100 students
Level 5	30000 Rs	100 students

Maamma Drone Learning Programme

Our Mission & Vision

Technology for Every Corner of India: Our mission is to provide excellent quality and affordable technology education to every part of the country, ensuring no student is left behind.

Drones are Essential Infrastructure: Knowledge of drone technology is now a crucial requirement for future careers as industries shift toward experiential, hands-on learning.

5 Levels of Learning

Professional Career Tracks

Institutional Implementation

Premium Training at Your Doorstep: We bring high-cost technology training previously exclusive to metro cities directly to urban, rural, and remote institutions.

Minimal Setup Requirements: Institutions only need to allocate space for a standard classroom and a basic Drone Lab setup.

Expert Trainer Support: Maamma Foundation and associate partner Droneva implement the programme by training graduate-level trainers to ensure quality delivery.
